Subject: RE: Issue Paper on DuPont Spin-Off of Chemours

Cecila, et.al.,

We have at three active corrective action facilities that went from being DuPont to Chemours, two are our lead (Belle, Potomac Works) , and one is WVDEP (Washington Works). Other than the Company name change, and some Project Managers Work, the work continues at the same as before.

We have gotten several inquiries about Chemours ability to satisfy Financial Assurance, since Dupont use the Financial Test to cover its environmental liability, but Chemours as a new company will not be able to do that; see links below for more info. We will compile all the LCD matters in time for the briefing.

Belle

Thanks. It seems that we will have multiple divisions with information. I would suggest that each you provide a contact to Joan Armstrong and they can work on preparing the materials and presentation for the briefing.

Thanks. Cecil.

Cecil – thanks for the notice and yes, please include WPD in the invite. Here is a specific connection in WPD:

PFOA matters at the Washington Works, WV site that we have been managing for close to 15 years. Karen Johnson is contact.

We are checking other possible links as well. Think we have a Dupont Edgemoor NPDES enforcement CD in place but I believe they sold this site

Ex. 5 Deliberative Process (DP)

Andrew Harten will remain our contact. Andrew is associated with the Chemours spin –off and discussed the corporate changes with us a couple months ago and indicated he was going to Chemours for continued PFOA contacts.
